

Spring Break Camp Robotics/STEM

Come and join in on the fun! Our camp is all about Science, Technology, Creativity, Engineering, and Fun! Robotics classes will have limited spaces available. Facilitated by Cindy Featherston – RES Quest Teacher.

COST:

\$90

Hours :

9-12 am (K-2)

12:30 – 3:30 pm (2-4)

Parents of 2nd Graders can decide on which session is more appropriate for their child.

To Register for these camps please go to this link and fill out the form :

Please make your check out to Cynthia Featherston or you can use (friend and family only so there is no processing fee) PayPal.

If registering after Feb. 26 please email Featherston.cindy@gmail.com to confirm space in camp and pay the first day of camp.

Learn to Code with Robots!

Students will learn to code using Dot and Dash, and Sphero robotics. These wonderful creative robots will bring your child's code to life.

Student will also be learning to code with apps. Please have your child bring their own device with the free apps listed on the online registration form.
